

Purchasing from the
Consolidated buy

Step 1 Log-in to CHESS

<https://chess.army.mil>

The screenshot shows the CHESS E-MART website in a web browser. The browser's address bar displays <https://chess.army.mil/>. The website header features the "CHESS E-MART" logo with the tagline "Army's designated Primary Source for commercial IT". Below the logo is a navigation bar with links: "Contact Us", "Feedback", "FAQ", "Sitemap", "My Account", and "Logout". A search bar with a "Search" button and a "Report a Bug" link is also present. A horizontal menu below the search bar lists categories: "Hardware", "Software", "Services", "RFQ/RFP/RFI", "Consolidated Buy", "Resources", and "About CHESS".

The main content area features a central announcement: "CB-19 is OPEN". To the left of this text is an image of a red laptop. To the right, it states: "The CB-19 ordering period is June 16 through September 30, 2014." Below this announcement is a pagination bar with links "1 2 3 4 5 6 7 Stop", where "1" is highlighted.

The website is organized into a grid of six content blocks:

- Hardware**: Includes links for ADMC-2 Contracts, ITES-2H Contracts, MED Contracts, Request for Quote: RFQ, Statement of Non-Availability: SoNA, Unified Capabilities Product List, Hardware Ordering Guides, and Request for Information: RFI.
- Software**: Includes links for Software Agreements, Microsoft Licenses, Army Software Downloads, Software Inventory, DOD ESI, and AGM Software Licensing.
- Services**: Includes links for ITES-2H Contracts, ITS-SB Contracts, Request for Proposal: RFP, and Request for Information: RFI.
- Consolidated Buy**: Includes links for Overview, Products & Prices, Schedule, Exceptions, Vendors Point of Contacts, and Benchmark Information on AKO.
- CHESS Training**: Includes links for Request for Training Portal, Event Calendar, RFP Tutorials, RFI Tutorials, and ADMC-2 Ordering Guide.
- Resources**: Includes links for Contracting Guidelines, Network Access, Army/DOD Standards, CHESS Contracting, Technical Reference Web Sites, and Government Employee Purchase Program.

Step 2, click on consolidated buy tab and scroll down to products and prices and click

The screenshot shows the ARMY CHESSE-MART website. The header includes the logo, tagline 'Army's designated Primary Source for commercial IT', a search bar, and navigation links. The main navigation bar has tabs for Hardware, Software, Services, RFQ/RFP/RFI, Consolidated Buy, Resources, and About CHESSE. The 'Consolidated Buy' tab is active, showing a dropdown menu with options: Overview, Schedule, Products & Prices, Resources, Vendor POCs, Exceptions, and FAQs. An orange arrow points from the 'Consolidated Buy' tab to the 'Products & Prices' option in the dropdown. Below the navigation bar, the 'Products and Prices' section is visible, featuring a heading, a sub-heading 'CONUS/OCONUS PRICING:', and a list of pricing options. At the bottom, there are links to 'CB-19 Products and Prices' and 'CB-19 Contract Modifications'.

Hardware Software Services RFQ/RFP/RFI **Consolidated Buy** Resources About CHESSE

Products and Prices

CONUS/OCONUS PRICING:

There are three pricing options for each CB product category: CONUS, Named OCONUS and Remote OCONUS. Each are defined below:

- CONUS (CLIN AA): The 48 contiguous states, Alaska, Hawaii and the District of Columbia
- Named OCONUS (CLIN AB): Germany, Italy, Japan, Korea, Belgium, Turkey, Puerto Rico, United Kingdom
- Remote OCONUS (CLIN AC): OCONUS locations that are not listed under CONUS or Named OCONUS

CB-19 Products and Prices available as a [downloadable EXCEL file](#).

CB-19 Contract Modifications:

[CDW-G](#) [Dell](#) [Emtec](#) [HP](#) [ITG](#) [NCS](#) [Telos](#) [Transource](#)

Step 3, select the product tab that best meets your requirement. Listed below is only a small sample of the products available.

Mainstream Notebooks and Options

A desktop replacement platform targeted to provide office automation functions such as word processing, spreadsheet manipulation or presentation slide development. Processor provides adequate performance for office automation, incorporates docking station or port replicator to facilitate mobility but general size and weight may not be desirable for frequent travel use.

[View Mainstream Notebooks and Options](#)

Specialty Notebooks and Options

A platform targeted at the wide range of missions between desktop replacement and lightweight road warrior platforms. This wide range of performance requires trade-off analysis between processing power, size/weight, and battery life.

[View Specialty Notebooks and Options](#)

Ruggedized/Semi-Ruggedized Notebooks and Options

A distinctive platform targeted for missions where users encounter harsh environmental conditions.

[View Ruggedized/Semi-Ruggedized Notebooks and Options](#)

Lightweight Notebooks and Options

A platform with a weight limit of 3.5 pounds or less for users requiring a high level of mobility with the ability to conduct only basic office automation functions. Platform trades-off minimal processing capability and battery life for low weight and compact size.

[View Lightweight Notebooks and Options](#)

Step 4, example, lets purchase a ruggedized laptop Latitude E6430 ATG

Ruggedized/Semi-Ruggedized Notebooks and Options

Click on a product link below to view the full specifications, pricing details, and list of available options. Compare products by selecting the check box for each product you would like to compare and then clicking the compare button.

 Compare

OEM/Model	Vendor	Manufacturer	<input type="checkbox"/> (all)
Panasonic Toughbook 53	ITG	Panasonic	<input type="checkbox"/>
Latitude E6430 ATG	Emtec Federal	Dell	<input type="checkbox"/>
Latitude E6430 ATG	Telos	Dell	<input type="checkbox"/>
Getac B300 Ultra Rugged Notebook	NCS	NCS	<input type="checkbox"/>

Step 5, Compare at least (3) products
by putting a check mark in the box, then click the
compare tab

Assign 2 drive passwords	Supports Two Passwords	
Other Encryption Features	AES-256bit hardware encryption	

Step 9, if the lowest cost product meets your minimum requirement, you must purchase the lowest cost product, if not then purchase the product that meets your minimum requirement.

Step 10, return to the Chess webpage and click vendor POC's under the Consolidated Buy tab.

The screenshot shows the CHESSE-MART website interface. The browser address bar displays <https://chess.army.mil/ConsolidatedBuy>. The website header includes the CHESSE-MART logo and the tagline "Army's designated Primary Source for commercial IT". A navigation menu at the top contains links for Hardware, Software, Services, RFQ/RFP/RFI, Consolidated Buy, Resources, and About CHESSE. The Consolidated Buy tab is selected, and a dropdown menu is visible with the following options: Overview, Schedule, Products & Prices, Resources, Vendor POCs, Exceptions, and FAQs. Two orange arrows point to the "Vendor POCs" link. The main content area displays "Products and Prices" and "CONUS/OCONUS PRICING:" information. It states: "There are three pricing options for each CB product category: CONUS, Named OCONUS and Remote OCONUS. Each are defined below:" followed by a bulleted list:

- CONUS (CLIN AA): The 48 contiguous states, Alaska, Hawaii and the District of Columbia
- Named OCONUS (CLIN AB): Germany, Italy, Japan, Korea, Belgium, Turkey, Puerto Rico, United Kingdom
- Remote OCONUS (CLIN AC): OCONUS locations that are not listed under CONUS or Named OCONUS

 Below this, there is a link to "CB-19 Products and Prices available as a downloadable EXCEL file." and a section for "CB-19 Contract Modifications:" with links to CDW-G, Dell, Emtec, HP, ITG, NCS, Telos, and Transource. The "Standard Desktops and Options" section describes a platform for typical office automation tasks. The "Performance Desktops and Options" section describes a platform for office automation with higher performance requirements. Both sections have a "View" button.
